

European Journal of Translational Myology

Basic Applied Myology - *BAM On-Line* - Myology Reviews

Dear Colleagues,

Three new section editors and two additional sections, Myology Genetics and Myology Reviews, enrich the Editorial Board and the European Journal of Translational Myology/Basic Applied Myology from Vol. 20, 2010. Six issues will appear per year devoted to scientific contributions including full papers, short but finite communications, reviews, methods, hypotheses, teaching reports, conference programs & abstracts and Myology News. All scientific contributions will be subject to a standard peer review process by two external reviewers. Focused Issues will be edited on specific myology topics with original reports. Previous and new Section Editors and Advisors are committed to make *BAM On-Line* the European reference forum for Translational Myology. To achieve this goal, the European Journal of Translational Myology will present more articles in the national languages of the authors to reach a larger audience amongst specialists and practitioners in their own country. On the other hand, we hope that the new section Myology Reviews will disseminate in all Europe forefront knowledge of basic myology and would influence best-practice in Clinical Myology.

The upcoming 2010Spring PaduaMuscleDays, to be held in Terme Euganee, Padova (Italy) next April 22 to 24 2010, are organized by the Interdepartmental Research Center of Myology (cirMYO), University of Padova. Main goal of the 2010Spring PaduaMuscleDays is to organize an EU Initiative for Translational Myology on Myology Genetics&Proteomics, Malignancy&Myopathies and Monitoring&Treatments. The Workshop of the Eu Initiative open the meeting April 22, 2010.

Two tutorials on h-bFES (home-based Functional Electrical Stimulation) and Functional Echomyography co-organised by the cirMYO of the University of Padova, and the Ludwig Boltzmann Institute of Electrical Stimulation and Physical Rehabilitation, Wilheminspital Vienna, Austria are offered to all participants, in particular to those registered for the "Master in Exercise Testing and Research in Rehabilitation Medicine" organized by the Neurorehabilitation Unit of the University of Pisa, Italy.

Please, to down-load program, general information and the eegistration-accommodation forms of the 2010Spring PaduaMuscleDays link to *BAM On-Line* at: <http://www.bio.unipd.it/bam/bam.html>. You will also find the Information for Authors to submit abstracts and manuscripts for both the PaduaMuscleDays and the Journal.
